

¡Bienvenidas a Español 3ACP!

Welcome to Spanish 3! Did you know that speaking another language is a very important skill? Speaking Spanish is beneficial not only in terms of communication, but also when it comes to university entrance requirements, future job opportunities and salary potential. This year you are going to expand your understanding of the Spanish language by participating in classroom activities that promote listening, reading, speaking and writing in Spanish. You will gain insight into diverse cultures, while exploring Spanish speaking countries. First, you will learn how to talk about what you used to do in the past. Then, you will learn how to better express yourself in Spanish by discussing your interests and opinions and reacting to news. Next, you will try new and different Latin American foods and comment on them. Lastly, you will improve your ability to interact in today's global society by using technology as a tool for learning. Students who register for Spanish 1001 through UMSL will receive FIVE advanced credit hours.

Grades

Task	Percentage
Midterm / Final	10
Formative Assignments (Homework, Quizzes & Independent Activities)	30
Summative Assignments (Tests & Conversations)	60
Total	100%

Participation: You are expected to come to each class prepared to participate. Likewise, at the beginning of every class meeting you must have on your desk your completed homework and current LAP (most days textbook and device on occasion). You must contact Srta. Boter to go over any missed material if you are absent→ aboter@iwacademy.org / msboter.weebly.com

Homework assignments are always due at the beginning of the following class meeting. You must place your name and class color on the top of ALL assignments. Srta. Boter reserves the right to collect any homework. If you are absent you are expected to turn in that day’s completed homework on the day you return to class.

Quizzes and Tests that are missed due to absence must be made up. You must sign up to take the missed assessment on the day you return to school. You will receive a demerit if you do not complete a summative assessment by the due date. Only ONE “Reassessment” on a failing test is allowed. You must sign up and retake the assessment during an Open Lab within ONE cycle. All formative assessments must be submitted to reassess and failure to do so will result in a detention

Independent Activities are due no later than the date posted in the LAP. These assignments will be completed independently in an Open Lab or the Library. You must sign up for conversations during the first week of a LAP or you will be structured. If you miss a conversation a Demerit will be issued.

Late Policy for Formative Assessments: (Homework, Independent Activities and Quizzes)

- All formative assessments are due by the date posted in the LAP. Any assignment turned in late must be received no later than the end of the next LAP and will automatically earn a 50%.
- At the end of the next LAP, all missing work will be given a zero and will no longer be accepted for credit.
- Each student will have one NLP (No Late Penalty) assignment per quarter. When the late assignment is turned in no late points will be deducted. If multiple assignments are missing and then turned in late, the NLP will be given to the assignment worth the most points.

Late Policy for Summative Assessments: (Conversations, LAP Tests, Midterm and Final)

- No student will earn credit or finish the course without the completion of ALL Summative Assessments.
- If a student misses a summative assessment, it is her responsibility to contact the teacher to reschedule.
- Once a Summative Assessment is missed, “Absent” will be entered in the grade book, which is tied to a zero and the student will be placed on the “I” List.
